Subject: [Fwd: Antitrust Settlement of Microsoft]

-

Dear DOJ:

I am outraged by the settlement you have negotiated for Microsoft.

It seem to have been written by Microsoft and it not in the best interest of American citizens. You are letting Microsoft go unpunished for its business practices.

What kind of message at you sending?

It is ok for criminals to go unpunished. I was wondering how I am going to explain this to my children. That we had a chance to right a wrong in the computer industry and make it move forward, but chose instead to do nothing! You are holding the computer industry hostage. And you will be responsible for the holding back of years of progression.

I would like you to disapprove of this settlement. And punish Microsoft the way it deserves.

Thanks,

Jennifer Lucha
